

The KDE250 ear clip was designed to give you the perfect Custom Fit. When you spend a few moments to make the custom adjustment available, you will enjoy amazing sound from a product designed to maximize your own personal comfort.

The KDE250 comes with 3 varying metal ear clips (S, M, L); which you choose is based solely on personal comfort.

The correctly sized clip will hug against your head, directly behind your ear, and hold the KDE250 firmly in place.

Clips may be interchanged at any time.

- 1) First match metal ear clips (A) to corresponding ear piece.
 - a. A red ear clip tip indicates right.
 - 2) Using the Custom Fit Dial, screw the metal clip into corresponding ear piece
 - a. Place the left ear piece in Home position (Koss logo facing you)
 - b. Place the left metal ear clip in ear piece hole
 - c. Apply steady pressure to the metal ear clip and hold in Home position, while rotating the Custom Fit Dial (B) to the right (counterclockwise) until ear clip is locked into the ear piece.
 - i. Metal ear clip is locked in place when it cannot be removed from the ear piece (approximately 2 turns).
 - ii. Dial will continue to rotate.
 - iii. Metal ear clip will continue to swivel.
 - 3) Use Custom Fit Dial (B) to find a comfortable ear clip height. The correctly sized clip will hug behind the top of your ear, directly above your ear, creating the perfect alignment between the earbud and clip, comfortably holding the KDE250 in place in your ear.
 - a. Hold clip and ear piece steady in Home position.
 - b. Rotate Custom Fit Dial left to adjust up.
 - c. Rotate Custom Fit Dial right to adjust down.
 - 4) Place in ear and swivel the hinge (C) to adjust the ear piece into the ear canal. Push ear clip firmly against head.
- If needed, change ear clip size to achieve your Custom Fit.
- a. To remove ear clip, rotate Custom Fit Dial to the left until clip is loose and can be easily removed.
 - b. Replace ear clip following the instructions in Step 3.
- 5) Repeat for the right ear piece and enjoy!

One size does not fit all! Spend some quality time to make certain that the KDE250 conforms to you for a perfect Custom Fit.
